3D-ultimatepro

The **complete** choice for treating:

Fat Reduction

Cellulite and Skin Tightening

Skin Tightening and Fat Melting

Which treatment is right for you?

3D-Cavitation

Best for

Overall fat reduction.

Areas that can be improved

Larger areas of fat such as the abdomen, thighs and 'muffin tops'.

Results expected from this treatment

Results can be seen from treatment one, with an average loss of 2-4cm per treatment. Results will be improved during each treatment*.

3D-Shockwave

Best for

Stubborn pockets of fat and cellulite and skin tightening.

Areas that can be improved

Many areas including outer and inner thighs, arms, hips, buttocks, stomach.

Results expected from this treatment

Results are seen as quickly as 2 weeks after starting the course. Exercise and increased water intake may achieve even better results*.

3D-Fat Freeze

Best for

Stubborn pockets and body sculpting.

Areas that can be improved

Stubborn areas such as inner thighs, lower abdomen and 'muffin tops'.

Results expected from this treatment

On average a 20%-40% reduction of fat in the localised area. As the body takes several months to flush out the dead fat cells, results will be visible after 6-12 weeks*.

3D-Radio Frequency

Best for

Skin tightening, smoothing of fine lines and wrinkles, fat melting, reducing the appearance of cellulite.

Areas that can be improved

Areas with loose skin and cellulite such as 'bingo wings' lower abdomen, and back of thighs.

Results expected from this treatment

Results can be seen after first treatment and improve with each treatment*.

*If a healthy diet with plenty of water is maintained.

Treatments can be combined to give you a bespoke plan for fat removal, skin tightening and cellulite reduction.
